05.11.2019

Dear parents,

Following the recent survey that was issued before half-term I would like to thank all those who responded and I have shown the results for 2018 and 2019 over the page.

- The number of responses went down from 109 to 62.
- The figures in the table are all percentages.
- 14 areas improved in agreement, 3 got worse and 2 remained the same.
- We had 24 additional comments from parents on how to improve the school.
- All responses bar one were anonymised.
- All responses to be securely stored.

The Governors will be discussing the survey results on Thursday 7th November.

From the survey results we are **proposing to implement** the following changes:

1. A monthly parents' meeting
 - how to help your child with an area of learning
 - current issues in school
 - open question session.
2. Questionnaire to parents regarding best time(s) to hold such meetings.
3. Fortnight availability of senior leaders in a "drop-in" style provision.
4. Purchase new playground equipment...already agreed in school budget for Spring 2020.
5. Try to update website more often.
6. Review and update information given to parents of new children into school.

Yours sincerely,

Mr A. Ridout (Head Teacher)
